Bird Walk Schedule - Fall 2013

Arboretum bird walks start this Friday, September 6, and will continue for five consecutive Fridays.

Friday, September 6
Friday, September 13
Friday, September 20
Friday, September 27
Friday, October 4

This is a great way to experience fall migration. Many species will have molted into their confusing fall plumage, providing lots of identification challenges. We will find resident species, migrants stopping to refuel at the Arboretum, and winter residents arriving to over-winter here. We will also have the opportunity to check out the banding station on days when banding is occurring in the Arboretum.

♦ Walks start at 8:00 a.m. and end at 9:30 a.m.

♦ Wear sturdy shoes for walking on wet ground and bring a pair of binoculars, if you have them. (We will have extra pairs of binoculars if you do not have any.)

♦ Meet at the Arboretum’s Overlook Pavilion parking area (off Bigler Road on the same side of Park Avenue as the law school building).

♦ All levels of experience are welcome. Hope to see you there!
